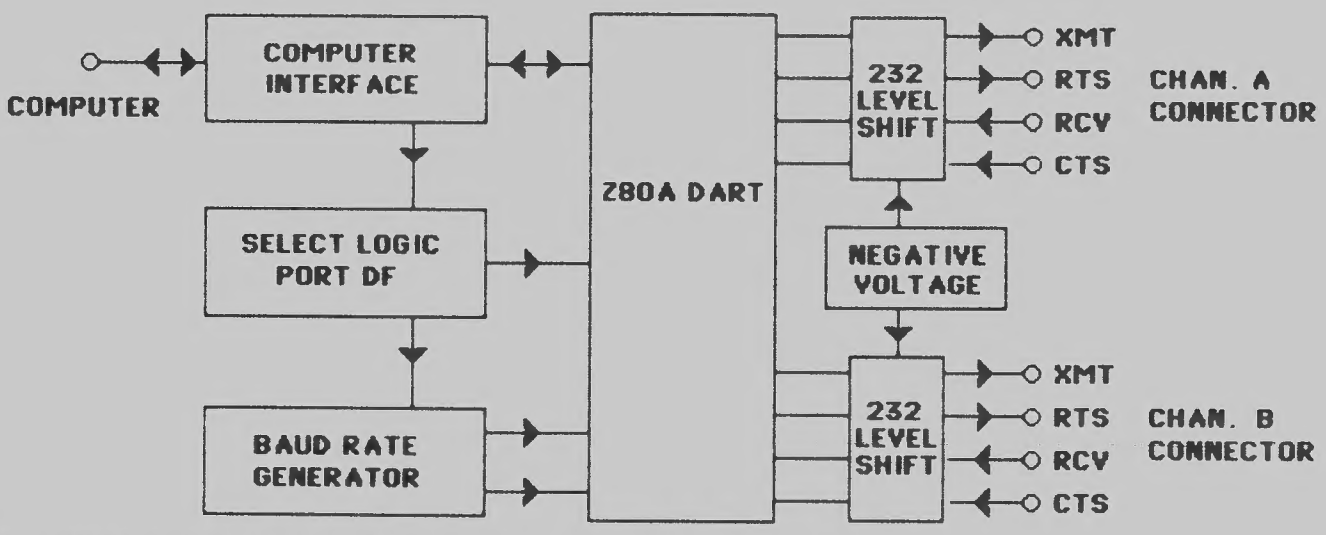
MODULAR INTERFACE FOR TSC COMPUTERS

DUAL RS-232 SERIAL INTERFACE
TS1000, TS1500, TS2068

The RS-232 interface is used to communicate with peripheral devices such as Printers and Modems as well as other computers. This is a dual channel board so it can communicate with 2 separate RS-232 devices at 2 independent baud rates. It has on-board crystal controlled baud rate generators with software selectable rates of 50 to 19,200 Baud. It can be used with tape or disc based software or it can have mounted directly to it an EPROM board to provide control firmware directly from Power-On. It plugs directly on to the back of the computer and has a feed-through connector.



☐ INTERFACE WITH CABLE FOR 1 DEVICE $89

☐ INTERFACE WITH CABLE FOR 2 DEVICES $99

☐ BUILT IN EPROM BOARD WITH FIRMWARE ADD $49

☐ ZX81/TS1000 ☐ TS1500 ☐ TS2068

Please add $3 for shipping.

Enhance the performance of your TS 2068 with the **AERCO** Disc System. All of the speed and convienience of a full-out floppy disc system. Save, load and copy programs at the industry standard of 250,000 bits/sec. Fully compatible with all Shugart type drives, including those already in use with the **AERCO** 1000 Disc System. The 64K of on-board RAM can be used as a second bank of system memory or for a full-blown CP/M System (version 2.2). The RGB output is crystal clear and rock steady. The power supply is a 5-amp high efficiency switcher. We offer a variety of other hardware for all models of sinclair-TIMEX.

NOW AVAILABLE: 256K UPGRADE $50 (2-drive max) $80 (4-drive max)

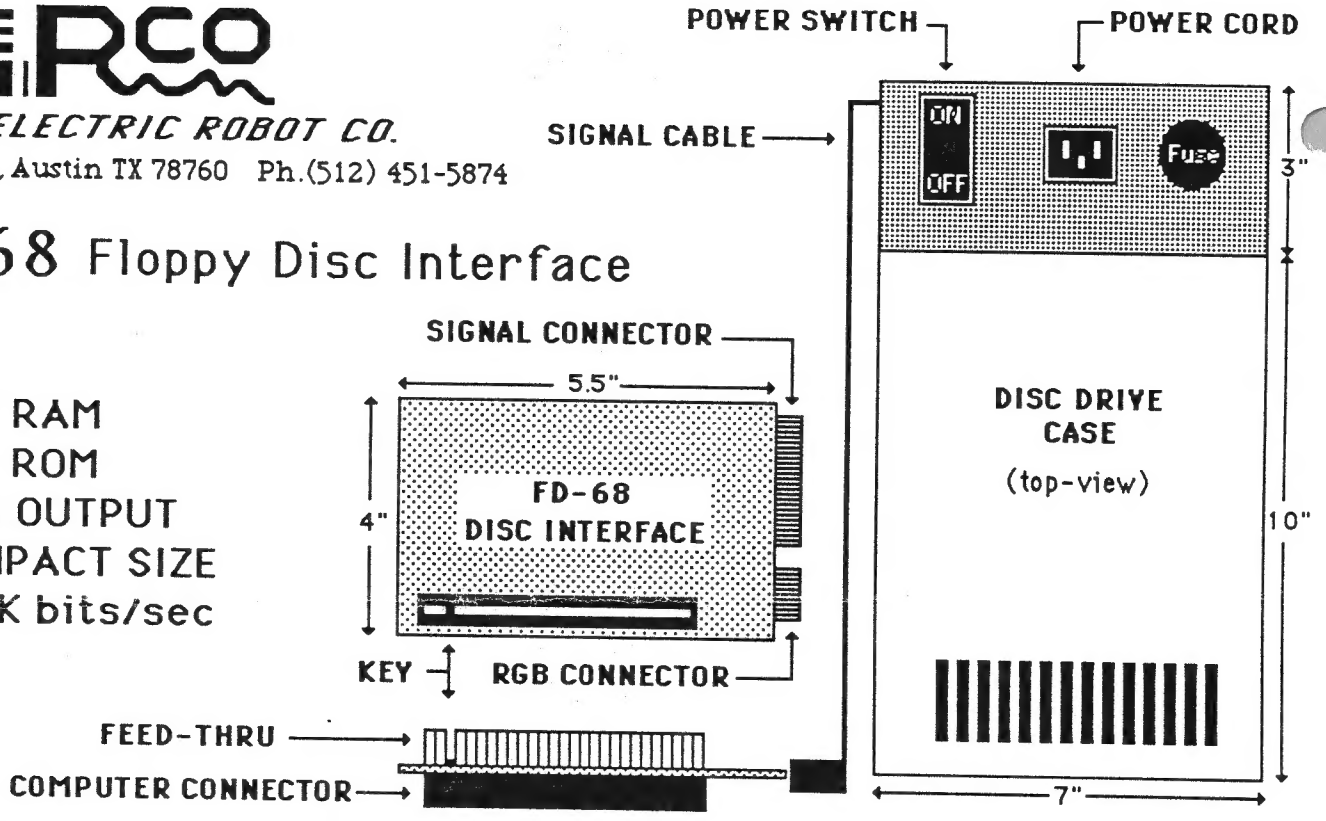
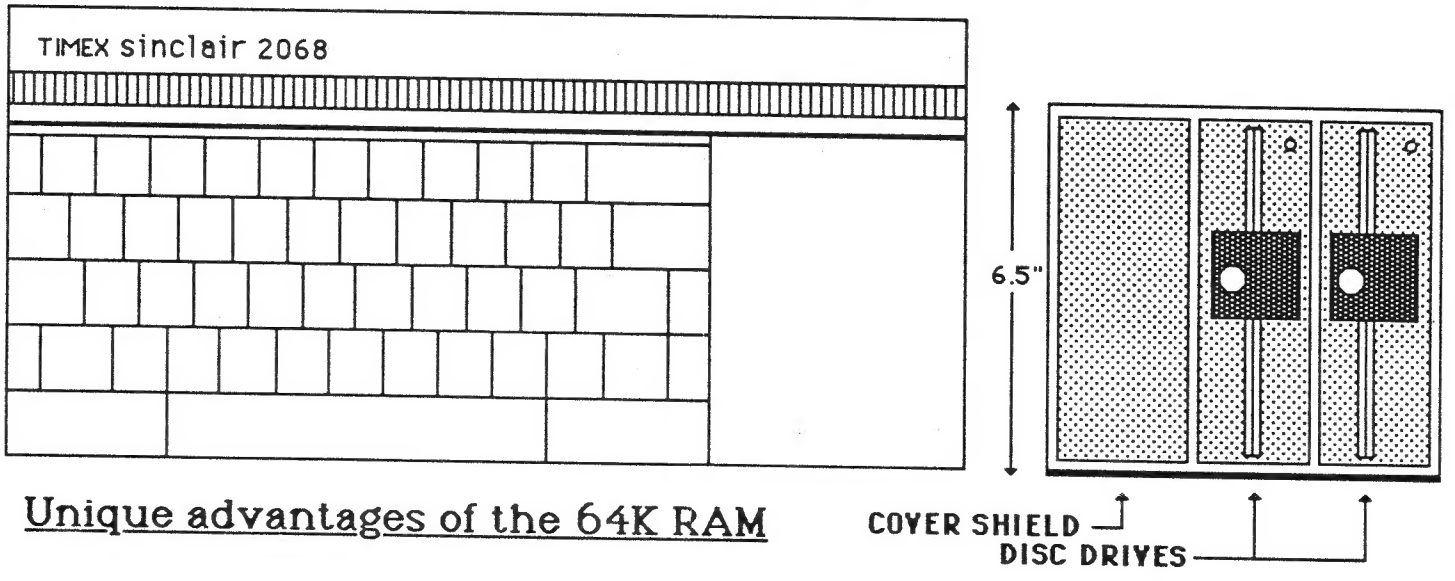
FD-68 Floppy Disc Interface

64K RAM
8K ROM
RGB OUTPUT
COMPACT SIZE
250K bits/sec





Unique advantages of the 64K RAM

1. Emulate the Spectrum ROM from Disc

2. Run CP/M version 2.2. Access the worlds largest collection of public domain and commercial software.

3. Run a second or much larger program than the original 48K RAM inside the 2068 allows.

HIGH PERFORMANCE FLOPPY DISC INTERFACE for the SINCLAIR - TIMEX COMPUTERS ZX-80, ZX-81, TS-1000, TS-1500

- LOAD A 16K PROGRAM IN 4 SECONDS . . . FIRST TIME, EVERY TIME
- INTERFACES 1-4 FLOPPY DISC DRIVES, ANY SIZE SHUGART COMPAT.
- RIBBON CABLE CONNECTION TO THE COMPUTER FOR TOP RELIABILITY
- USES COMMONLY AVAILABLE SOFT - SECTOR DISKETTES
- $ 179 THOROUGHLY TESTED, 1 YEAR FACTORY WARRANTY

CENTRONICS PRINTER INTERFACE
FOR TS 1000, ZX 81
$ 99

* All cables included
* On board EPROM contains ASCII conversion
* Automatically sets RAMTOP, even in 64K system
* Supports LPRINT, LLIST, and COPY commands
* Gold plated edge connectors
* Ribbon cable connection to computer
* Includes male connector for Sinclair device

* *

CENTRONICS PRINTER INTERFACE
FOR TS 2068
$ 69.95

* All cables included
* Printer driver software cassette included
* Supports LPRINT, LLIST, and COPY commands

* *

C. ITOH PROWRITER 8510 AP PRINTER $ 375

* Full width DOT MATRIX printer
* Full graphics capability
* 120 characters per second
* Biderectional printing
* Greek and other character sets built in
* Includes tractor feed and plain paper feed

DIRECT VIDEO MODIFICATION FOR TS-1000, 1500

A small circuit board with cable that installs inside the computer and sends clean, sharp video to a standard computer monitor. It does not disable the the normal TV output nor does it invert the video. Requires soldering 3 wires inside the computer. Complete instructions are included. **$ 15 for DV-1 $ 3 S/H**

SHIPPING FREE IF PART OF OTHER ORDER

STD Bus INTERFACE FOR INDUSTRIAL APPLICATIONS

Allows TS computers to function as bus master in STD Bus computer system as commonly used for industrial process control and instrumentation systems. Fully buffers all the computer lines onto the bus and maps the I/O ports into memory space. **$ 3 S/H**

$ 99 including ribbon cable to computer

Dual RS-232 serial interface for ALL models of the T/S computers

Completely independent channels can be configured for separate Baud rates and communications parameters. **$ 89**

Floppy disc interface for the TS-2068

1 - 4 Shugart compatible drives of any size, double side, double density. Complete system packages available. **$ 199**

CPM® for the TS-2068

The worlds largest collection of business / scientific software. Requires AERCO disc system. **$ 80**

Did you know ?

That floating point arithmetic runs about twice as fast on the T/S machines than on an Apple II.®
